

Senior School

REDLANDS COLLEGE *Celebrating* **30** years
A Christ-centred learning community

Senior School @ Redlands

Senior School at Redlands College marks the beginning of a student's adult journey into education. It is a time when students will focus on preparing for their future pathway.

The Senior School intentionally supports students as they continue to form their identity in a Christian environment. Students explore ways of using their gifts and talents to serve others both here at the College and in the community.

As a Christ-centred learning community, we desire to see our students grow holistically: academically, spiritually, physically and socially.

Opportunities @ Redlands

The staff at Redlands College are passionate about learning. They understand that learning can look very different for each student.

In partnership with our Pathways team, students and families are able to tailor the learning journey to each individual student's needs. Whether in a tertiary or vocational setting, we aim to equip our students with the skills and training that they will require beyond Year 12.

We are excited to also partner with a wide range of educational providers and business to create opportunities for our students to further develop their gifts and talents.

Grow @ Redlands

Our vision for Senior School students is to help them identify who they are as young adults and learn to use their giftings to serve their community both at Redlands and more broadly.

As a College we recognise that each student is on a unique learning pathway. We can provide an excellent academic education while also providing outstanding vocational training opportunities.

Students can focus on gaining tertiary entry through an Australian Tertiary Admissions Rank (ATAR), devote themselves entirely to vocational training or pick a combination of both.

As a registered training organisation (RTO) we have the ability to offer a range of vocational opportunities within the College. To further enhance the opportunities for our students we have partnered with a number of other training organisations and employers.

Students can choose from one of our 6 main pathways:

- Specialist Tertiary
- Specialist Sports
- Specialist Music
- Tertiary and Training
- Study and Work
- Work Ready

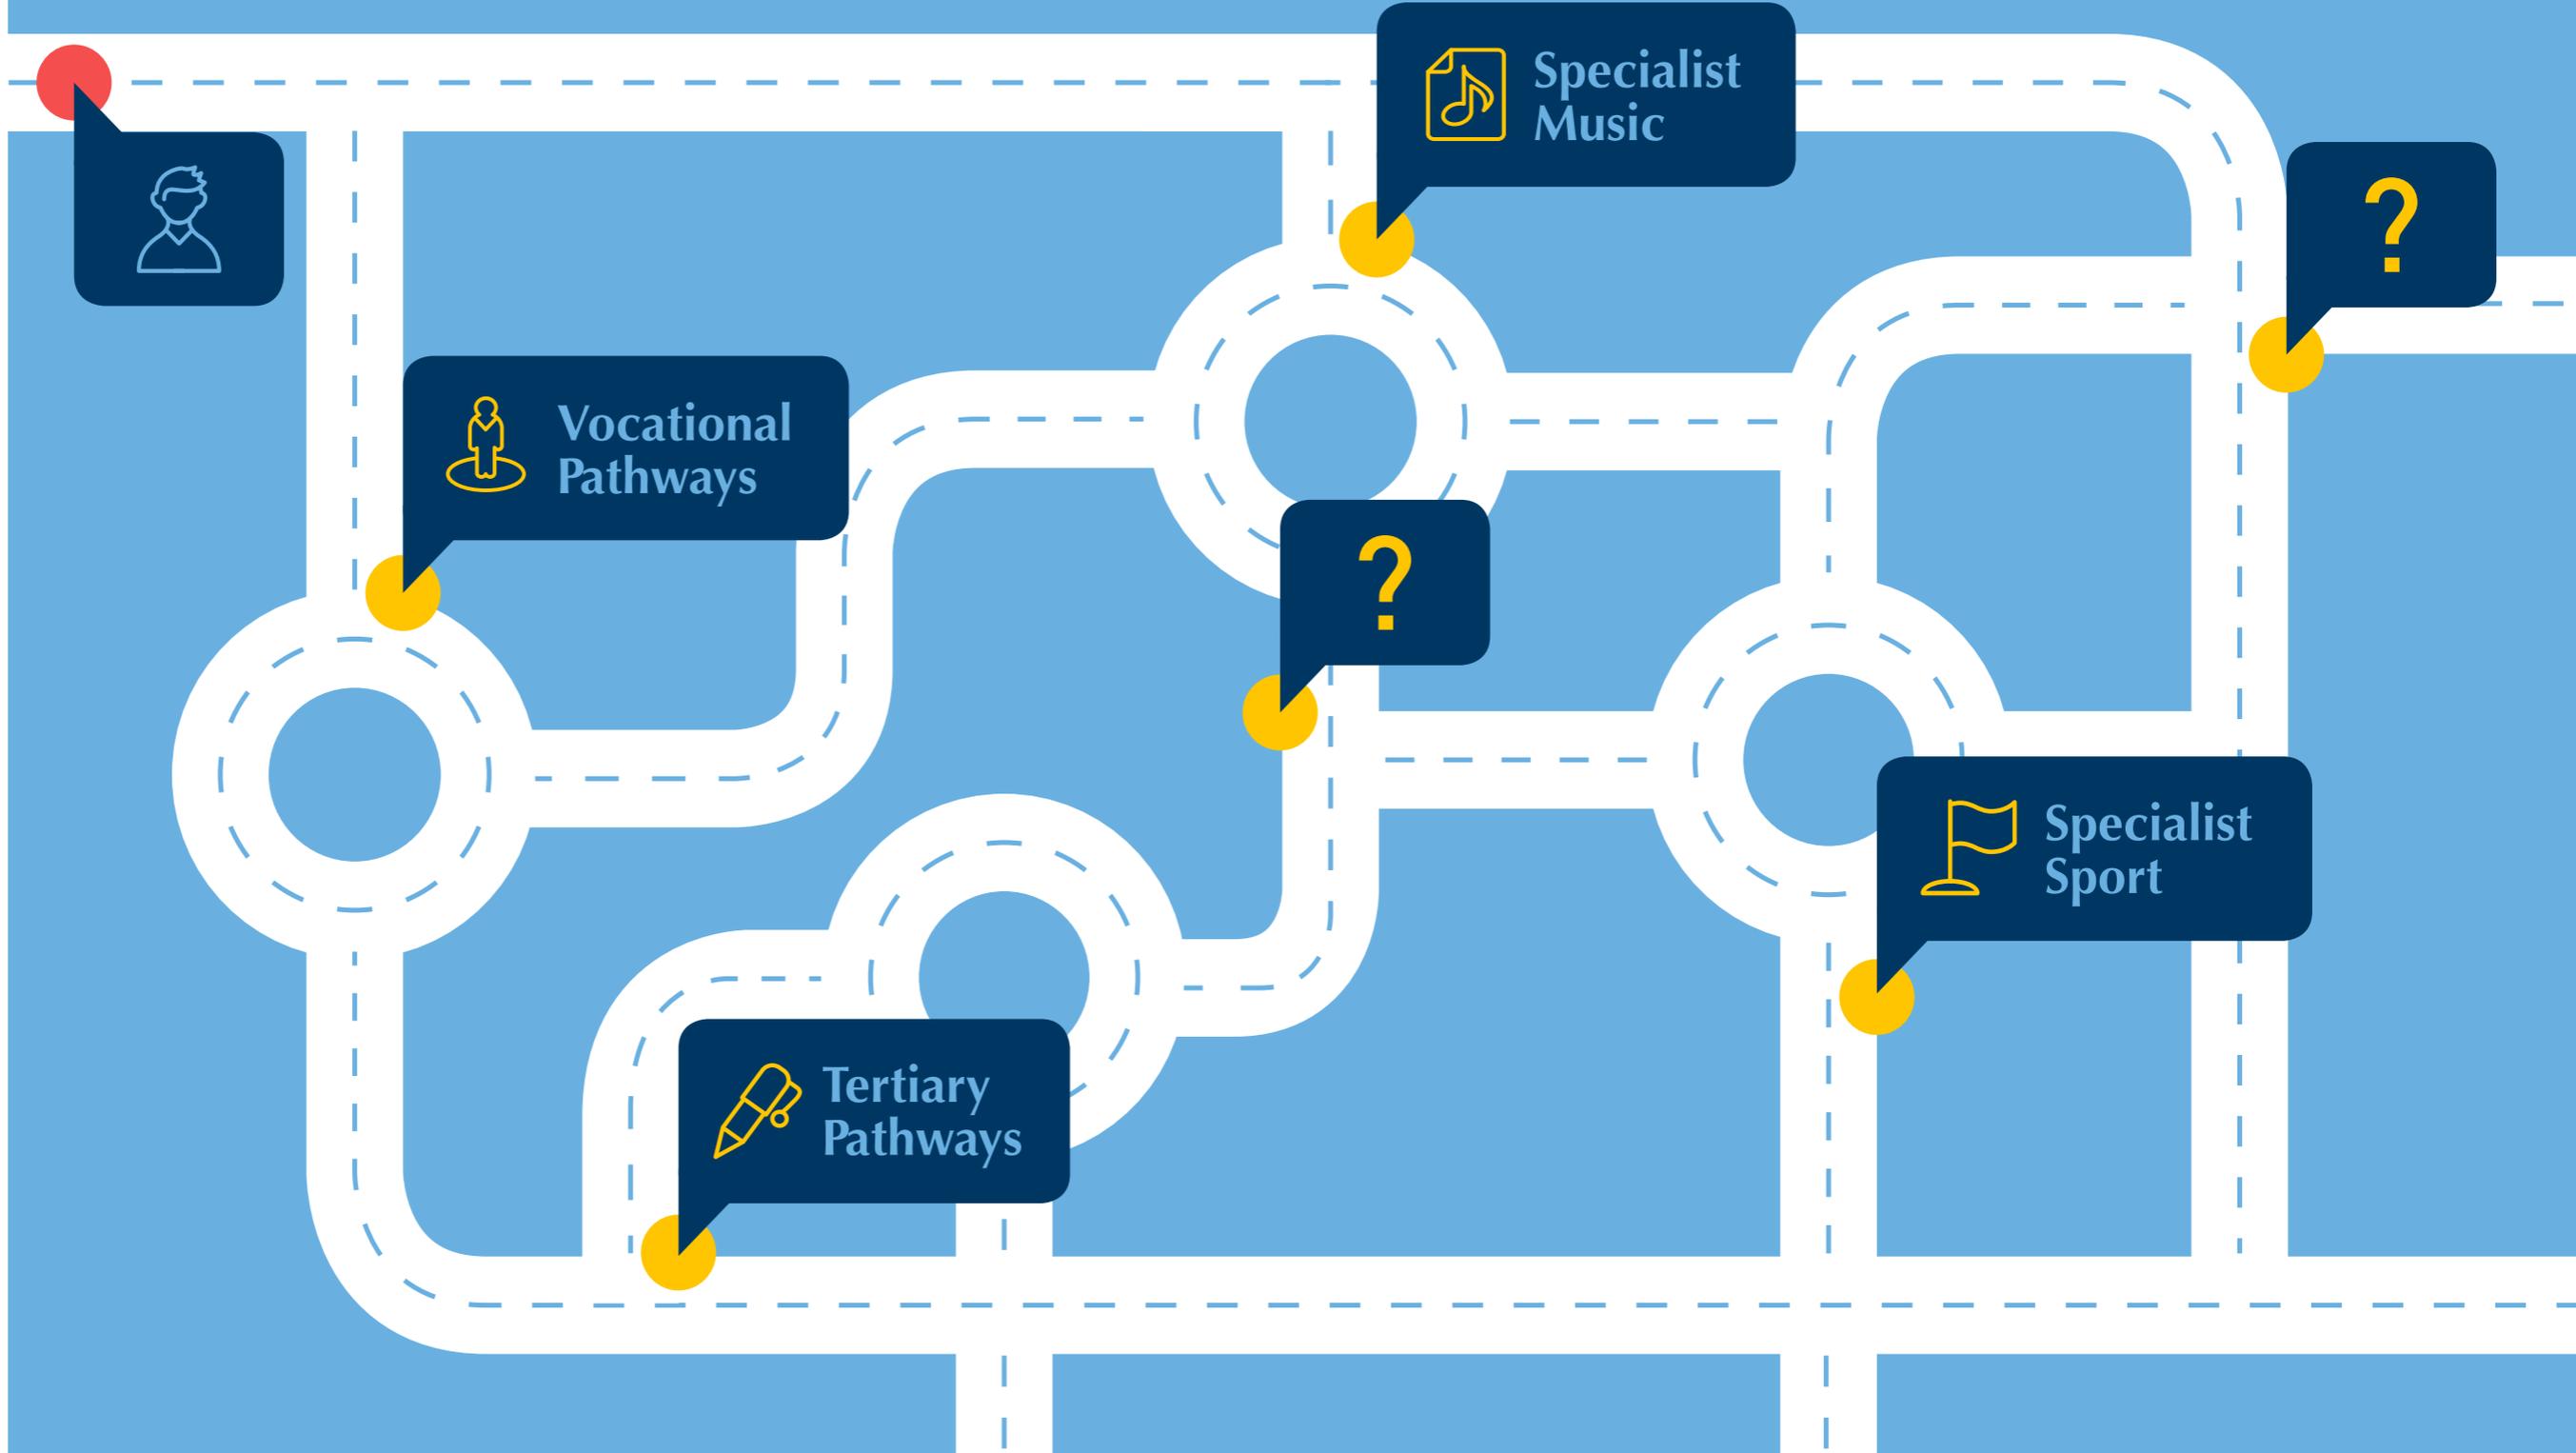

Within these six main pathways we customise the learning for each student.

Learn @ Redlands

What's your PATHWAY?

Corporate Training Partners & Employers

At Redlands College, we believe that every student has God given gifts and talents. As a College, our role is to partner with families to form and educate our students. We aim to provide opportunities for our students to grow spiritually, physically, academically, emotionally and socially.

In the Senior School students have the opportunity to immerse themselves in a wide range of activities beyond the classroom walls. These both shape who they are as young men and women as well as giving them the skills and knowledge to take them beyond Year 12.

We have opportunities for students to travel to Vanuatu and New York on service trips, spend eight weeks on exchange in Japan, travel to Europe as part of the History trip, complete their Gold Duke of Edinburgh's Award on the Kepler Track in New Zealand as well as participate in interstate Arts and Volleyball trips.

Student may choose to join choirs, bands, ensembles and have the opportunity to be part of the musical and play.

Our students proudly represent the College in debating, mooting, sporting teams and numerous other groups.

Co-curricular events play an important part in creating a holistic education for students in the Senior School.
