# Important Bus Information 

In conjunction with Transdev, we strive to provide a reliable, safe and consistent service to our families. Please note and discuss the following guidelines with your child/ren.

- Students need to be vigilant in hailing the bus as it approaches. Every effort is made to maintain driver consistency; however, it cannot be guaranteed. In the instance a replacement driver is required, and is not familiar with your child's pick-up point, a hailing student is significantly more visible from the driver's seat.
- Students can be collected from non- designated bus stops. If applicable to you, please ensure you are standing in a safe and visible spot. An approaching driver needs time to see you, negotiate traffic, and prepare to pull over.
- On any occasion where the 'regular' driver is absent, it is crucial to announce/warn the diver that your stop/drop-off point is nearing. It is preferable for students to stand up in their seats and alert the driver of their stop. For safety, under no circumstances are the students to make their way to the front of the bus, until it is at a complete stop.
- All buses are fitted with seat belts for safety, and MUST be worn for the duration of the trip.
- Passengers must not place feet on seats.
- All sound equipment must be played at a reasonable level with earphones attached.

V Valid bus passes are compulsory and need to be carried by students at all times.

- Appropriate behaviour and conduct in line with College policy is expected. Students failing to behave in an acceptable and considerate manner will be referred to the RTC Coordinator.

NO food is to be consumed on board the buses.

Thank you for your attention to this information and I welcome your contact should you have any queries or concerns regarding your son/daughter's bus travel.
