Review Date:	Every three years	Next Review Date: 08/06/2023
Policy Owner:	First Aid Centre Coordinator	

Policy Statement

- The College is not a peanut or allergen free area. This is not manageable and promotes a false sense of security. However, all efforts will be taken by College staff to ensure the safety of the students concerned
- Redlands College staff embrace contemporary approaches to assisting young people manage their health conditions. The emphasis is on encouraging them to become increasingly self-sufficient as they develop and mature.

Implementation

Staff Awareness and Training

- Staff anaphylaxis training will be provided by an accredited First Aid Trainer at the beginning of each school year. A training video endorsed by the ASCIA and a training version of an EpiPen Adrenaline Autoinjector, may be utilised at these awareness sessions.
- Current photographs of anaphylactic students will be displayed in staffrooms and in playground duty folders
- All staff must familiarise themselves completely with this policy and be prepared to carry out the procedures within, when confronted with a child suspected of having an anaphylactic reaction
- Staff will ensure they have internet access to student medical information on TASS, or have printed out on the relevant information for all excursions, camps and off campus events attended by anaphylactic students.

Parental Responsibilities

Parents must:

- inform the College that their child is anaphylactic upon enrolment or as soon as practicable after diagnosis
- provide the College with an ASCIA Anaphylaxis Action Plan, completed by their doctor
- continue to provide the College with updated ASCIA Anaphylaxis Action Plans throughout their child's enrolment at the College
- provide the College with any updated information that relates to their child's medical condition and treatment
- ensure their child carries their own EpiPen Adrenaline Autoinjector on their person at all times
- inform the College should their child commence bus travel; and
- negotiate with bus companies to determine an action plan in case of an attack while on the bus.

Parents may:

- provide any prescribed anti-histamine medication and spare EpiPen to the First Aid Centre as per the College's General Medical Care Procedure.
- Provide their child's teacher with a suitable alternative cake or similar for any in-class birthday celebrations (Junior school)

Junior School Control Measures

- Children will be asked not to bring in any known allergens
- The child will be encouraged to only consume food brought in from home. They are not to accept food from other students under any circumstances
- If a cake or similar is coming for a birthday, the teacher will provide the allergic child with the alternative sent in from the child's home
- The teacher may need to modify class activities to accommodate the individual children - for example, removing or replacing certain substances from recipes to remove identified allergens
- Children will be supervised whilst eating during breaks. A child with food containing a known allergen, may need to sit away from their classmates while eating, and be monitored by a staff member while washing their hands afterwards
- If a staff member on duty believes a child with anaphylaxis has been exposed to an allergen, the First Aid Centre must be notified immediately to commence appropriate action. If the student is off campus the staff must follow the Anaphylaxis Action Plan which is attached to the student's medical information on TASS.

Middle and Senior School Control Measures

- Teachers must be aware of students in each of their classes with anaphylaxis
- Teachers may need to modify the individual student's activities while participating in regular classes - for example establishing a specific set of cooking equipment to be used exclusively by the individual student or removing/replacing certain substances from recipes to remove identified hazards for individuals.

Compliance and Monitoring

This policy will be available to parents on the College website and referred to in parent handbooks.
